2 REVIEWS FOR PERSONALIZED SELF GUIDED MOTORCYCLE TOUR

I gave my husband a personalized tour for his 50th birthday. We came with a few friends for a 10 day ride. M2 planned everything and it made life easy. We had a lovely ride through France, the Alps and around the Lake Como & Maggiore. Everything went off without a hitch. The guys at M2 even rode with us at the start to get us used to how to safely ride in Europe. Everyone in our group loved every minute & every mile.

My wife & I had M2 plan a tour for our 25th wedding anniversary. We both wanted to ride the Alps, but not with a group. Mike & his guys did a great job of taking care of the itineraries, hotel reservations & restaurant recommendations. We toured France, Italy & Switzerland and our only regret was that we should've made the tour a few days longer since we were having such a great time. The roads, hotels, food & service all were excellent. We're looking for a reason to go back and do another with friends this time.
